

PAWAN KUMAR SHARMA

Python Backend Developer | Web Developer

New Delhi, India | +91 88875 71256 | sh.pawank2101@gmail.com | github.com/shPawank | LinkedIn

PROFESSIONAL SUMMARY

Backend-focused developer building REST APIs with Python, FastAPI, and PostgreSQL, backed by ~2 years of production experience shipping web applications and LMS platforms in PHP, JavaScript, and WordPress. Actively building CourseForge (a full-stack LMS with authentication, enrollment, and certificate workflows) and SecureNotes (a JWT-secured notes API), applying REST conventions, request validation, and authentication/authorization end to end. Comfortable owning a feature from database schema to API to working UI, and quick to pick up new tools.

TECHNICAL SKILLS

Backend: Python, FastAPI, REST APIs, Pydantic, JWT Authentication, PHP

Databases: PostgreSQL, MySQL

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Jinja2

Programming & CS: Python, Java, OOP, Data Structures & Algorithms

Tools & Platforms: Git/GitHub, WordPress, cPanel, Postman, Swagger UI, Canva, Figma

WORK EXPERIENCE

IT Associate (Full-Time) | CUTS Institute of Regulation & Competition, Delhi

Mar 2025 – Present

- Build and maintain course landing pages on circ.in using HTML, CSS, JavaScript, PHP, and Bootstrap, customizing layouts and resolving UI issues across multiple course launches.
- Manage end-to-end course content and workflows on a WordPress-based LMS, including no-code configuration and custom code modifications.
- Own participant registration data and support the complete course registration workflow from setup through completion.
- Maintain and troubleshoot existing web applications and databases to keep course operations and the website running smoothly.
- Design course-related visual assets, including agendas, brochures, speaker flyers, and certificates, using Canva and Figma.

Trainee IT Associate | CUTS Institute of Regulation & Competition, Delhi

Jul 2024 – Feb 2025

- Ramped up on the organization's LMS, PHP-based website, and internal tools within the first months on the job.
- Supported course launches, participant registration workflows, and ongoing website and content updates.

PROJECTS

CourseForge | Python Backend Project

In Progress

- Building an LMS-style web application to strengthen backend engineering and database-driven workflow design.
- Developing REST APIs with FastAPI and PostgreSQL to power user, course, and enrollment management.
- Implementing reusable course page templates and designing lesson, assignment, progress-tracking, and certificate workflows.

SecureNotes | Python Backend Project

In Progress

- Developed a secure REST API for user authentication and personal notes management using FastAPI, PostgreSQL, and Pydantic.
- Implemented JWT-based authentication with password hashing, using FastAPI's Depends() to validate tokens and restrict each user to managing only their own notes.
- Built RESTful CRUD endpoints for notes with structured request validation and proper HTTP error handling; tested via Swagger UI and Postman.

EDUCATION

Master of Computer Applications (MCA) – Computer Science

2022 – 2024

Krishna Institute of Engineering and Technology, Ghaziabad

Bachelor of Computer Applications (BCA)

2018 – 2021

Rajarshi School of Management and Technology, Varanasi

CERTIFICATIONS

- Essentials of C Programming — Cisco (Jan 2023)
- Essentials of JavaScript — Cisco (Mar 2023)
- HTML — LinkedIn Verified
